THE MILLION DOLLAR FACIAL

We all want to feel like a million dollars but how are we going to get there? Halo introduces The Million Dollar Facial.

A luxurious facial where science meets indulgence.

Working your skin from the outside in, this treatment has been designed to deeply exfoliate dead skin cells and remove non terminal hair, polish the skin, flush toxins, increase and stimulate your natural collagen and cell turnover. This method will heavily increase the absorption of any active ingredients by 80% as opposed to 8%. This is why we use a hyaluronic acid mask for maximum results.

You will benefit from a brighter, more even skin tone, your lymphatic drainage system is sped up eliminating toxins and puffiness around the eyes. Excellent for the elimination of pigmentation, scarring and you will also benefit from a reduction of fine lines and wrinkles.

All methods of this facial when put together give maximum results, which can be seen instantly and are also ongoing during the cycle of the skin healing.

CLINICCARE CARBOXY THERAPY

£50

By the age of 30, oxygen levels in our skin drop by 25% and about 50% by the age of 40, making skin more prone to the signs of ageing.

The CLINICCARE Non-Invasive Carboxytherapy facial is a treatment during which carbon dioxide (CO₂), is infused into the skin to encourage an increased flow of oxygen. Our body responds by increasing blood flow and growth factors, which in turn improves circulation, resulting in cell restoration, a reduction in fine lines and wrinkles and collagen stimulation.

The skin is cleansed to remove any impurities and make-up residue. This is followed by the Instant Painless Peel to gently exfoliate, unclog blocked pores and remove the top layer of dead skin cells. The Carboxytherapy Gel is applied to the face in a thick, even layer and then covered with the Activator Mask. This interface produces carbon dioxide which is infused into the skin, to augment the flow of oxygen by increasing peripheral blood circulation. Treatment is then followed with the lightweight Lip & Eye Renewal Cream to help reverse the multiple signs of ageing around these two delicate areas and either the Moisturizing Cream or Retinol Day cream to moisturise and further activate the regenerative process in the skin. Finally the Sun Shield Cream (SPF30) is applied to protect against harmful UVA and UVB rays.
